

Dear parents

We respect the decision of the Federal Office of Public Health FOPH that sports and leisure facilities must be closed. The health of the population and the staff is very important to us.

It is equally important that children and young people are allowed to continue to move and to engage in sports. The association ice rink Wädenswil would like to make a contribution for Wädenswil, that there is a possibility of movement with fun in this difficult time and that the youth does not have to stay at home.

The measures of the FOPH - valid from 22.12.20 – 28.2.21 - explicitly allow children and young people under the age of 16 to continue doing sports. Therefore, we allow access to our ice rink under continued consistent protective measures:

Ice rink – Fencing around ice rink:

Admission to the ice rink is permitted for children and youth under the age of 16. The staff has the right to make spot checks and ask for identification in case of doubt. Parents are also allowed to accompany their own children. However, third persons such as grandparents, relatives etc. are not allowed. Parents have no access to the ice field. As masks are required at all times, the consumption of food & drink of any kind and smoking within the fencing is strictly prohibited.

Rondodrom (Skates, Cash Desk, Takeaway):

For the necessary catering of the ice rink guests, a takeaway is available in the Rondodrom. The opening hours of the takeaway are based on the ice rink opening hours. In the Rondodrom there is a strict obligation to wear masks and to disinfect hands at the entrance. The rink guests all register, including details of their home address, in the separate zone. Since the Rondodrom is located on public land, individual passers-by can also make use of the takeaway - without the obligation to register. In the Rondodrom (ice-skate rental, cash desk & takeaway) it is forbidden to consume, move or leave objects of any kind. The stay is to be kept to a minimum. Guests are instructed to move quickly through the Rondodrom transit zone, taking into account the distances.

By registering, you confirm that you understand the measures and will comply with them at all times.
